A general purpose vacuum cleaner for everyday use

Tired of unreliable vacuum cleaners that often need repairing? The Nilfisk Thor is the sturdy, reliable vacuum that you've been looking for. A day-to-day, large capacity appliance that will never let you down.
The Thor checks all the boxes for a vacuum cleaner needed in a big home. It's a well-built, thoroughly reliable machine that will keep going day after day. It has a large capacity dust bag that can continue collecting dirt even after several laps of the biggest of houses. The Thor is a lightweight vacuum cleaner, making it much easier to manoeuvre up and down stairs. On top of all that, the HEPA 13 air filter, positioned on the top of this vacuum, will help purify the air in your rooms of small dust particles and pollen.

- **Dual-purpose** - Effective dust pick up on hard floors and carpets.
- **Excellent filtration** - HEPA 13 filter purifies the air in your home, trapping particles and releasing only clean air.
- **Easy to store** – Secure accessory and power cord storage as well as rear-mounted tool parking.
- **10 m long cable** - covering even more surface space.
- **Well-built** – Solid design, built for reliability.
- **Large capacity** – 8-litre dust bag is much bigger than most.
